EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Ihnen on March 30, 2005.

The application has been amended as follows:

Claim 1, line 3, after "(COC)", insert -- in the body fluid sample of ~~the~~ said person --.

Claim 1, line 11, replace "decreasing" with -- is decreased --.

Claim 4, line 3, delete "recognizing any one of the epitopes specific for gamma-carboxylated osteocalcin".

Claim 17, delete "recognizing any one of the epitopes specific for gamma-carboxylated osteocalcin".

2. The following is an examiner's statement of reasons for allowance: no prior art teaches or fairly suggests using antibodies recognizing in the region of amino acids 17-24 of carboxylated osteocalcin (COC) in the presence of EDTA to measure the osteoporosis or bone fragility in the persons. The closest prior art is the reference of Koyama et al. (J. Immunological Methods 1991 Vol. 139, page 17). However, Koyama et al. do not teach using EDTA to increase the specificity of the COC detection.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
